

Staff Training

& Development

The most effective Education Providers make sure that their staff are aware of the Funding Rules that govern their programmes. Do your administrators know what causes a funding error on the ILR? Do you trainers and assessors know why forgetting to evidence activity in a particular learning aim could result in hundreds of thousands of pounds of clawback? Does your new Finance Manager understand how the SFA and EFA Funding systems work? SRF deliver practical training sessions on the funding rules

and formulas, tailoring what needs to be known to those who need to know it. In just a few hours we can up-skill your staff and help reduce the risk of error.

Another service we can perform is a more formative review of data, in that there are many data checks that can be done in addition to DSAT to identify over and underclaims or other areas of risk.

SOME OF OUR TRAINING SESSIONS*

Annual Changes to the Funding Rules

The Golden Rules of Safeguarding SFA Funding

Introduction to the Funding Formula in SFA and EFA Funding

Understanding DSAT

Developing a Learning Support Claim

Preparing for SFA Audit

*SRF designed and delivered in 2014
